Thank you, Luke. We are glad to help. Would the charge number for PeoplePlus be the same number that Greg Powell is using? If so, we have that.

Marc, Johanna,

This has been taken care of and I'll put both folks into the resource tracking in this position.

Thanks and let me know if you need anything else.

Thank you Johanna and Luke. David and Mark will be “tag teaming” on this due to their schedules and this way we will be able to provide you and the response efforts with seamless support. Therefore, I kindly request that you put in the 213s for both of them. Also, our understanding is consistent with what is described below—that this support is to be provided remotely.

Please call if you have any questions,

Marc

Subject: FW: Ecorisk Support Request from the Environmental Unit

Luke – Dan Wall in the environmental unit is requesting support from David Charters or Mark Sprenger with ERT to provide ecotoxicology support to the Durango UC. Dan does not need someone to deploy to Durango but to review data and information he can provide electronically.

let me know if you need additional information in order to put together the 213. Johanna Miller

I will forward you some emails I sent to Richard graham asking to get the two eco guys below on board. They need some sort of formal request. Richard had told me he started the process when he was EU lead, so you may want to check with him.

Subject: Ecorisk support?

Hi Wendy,

I hope you, Dan and Deb are managing the stress OK. I know it's a very tough environment to work, let alone think within. I'm working on staffing availabilities for the next few weeks. We spoke earlier this week about the Region requesting risk assessment support, through the ICS (213 RR), for support by David Charters and/or Mark Sprenger. Could you let me know if that is still a need? They have not heard anything and I have not seen any requests for them. We are happy to support you as best we can.

Thanks,

Marc
